TITLE	St. Petersburg Junior College Fact Book, 1999-2000.
INSTITUTION	Saint Petersburg Junior Coll., FL. Office of Institutional Research.
PUB DATE	2000-00-00
NOTE	115p.
PUB TYPE	Numerical/Quantitative Data (110) -- Reports - Descriptive (141)
EDRS PRICE	MF01/PC05 Plus Postage.
DESCRIPTORS	*Accountability; Budgets; Community Colleges; Enrollment; *Institutional Evaluation; *Institutional Research; Outcomes of Education; Personnel; Program Evaluation; School Publications; State Standards; Statewide Planning; Tables (Data); Two Year Colleges
IDENTIFIERS	*Saint Petersburg Junior College FL

ABSTRACT

The St. Petersburg Junior College (SPJC) Factbook provide statistical information and a historical perspective on the college. It is designed as a reference for academic and administrative decision-making and planning. In general, data are provided for multiple years within each topic. The Factbook contains eight major sections: (1) History (includes early history from 1927, expansion during the 1960's and 1970's, and recent developments in the 1980's and 1990's); (2) Pinellas County service area; (3) Student enrollment (includes credit student history, opening fall credit headcount, end-of-session headcount, and student registration); (4) Academics (contains 5 tables showing enrollment, completers, graduates, and programs); (5) Outcomes/indicators (contains 6 tables showing space utilization, transfers, CLAST and MCPS/CPT passing rates, health education passing rates, placement, and student follow-up); (6) Facilities (contains 2 tables showing site acreage, acquisition, gross square footage, and replacement costs); (7) Personnel (contains 3 tables showing employees by gender, ethnicity, and highest degree earned); and (8) Finance. Appendices include degree and certificate program inventory, 1996-97 employers by program, accreditation schedule, and description of special programs. (RDG)

ST. PETERSBURG JUNIOR COLLEGE

1999-2000 *FactBook*

INTRODUCTION

The St. Petersburg Junior College *FactBook* is intended to provide statistical information to support sound planning and decision-making, as well as to provide a historical perspective of the institution. It is designed for use as a desk reference documenting data to support academic and administrative decisions and as a handbook for use by faculty wishing to gain a college-wide perspective.

In general, data is provided for multiple years in each section to provide a comprehensive view of the area. Topics include a brief college history, a description of the service area, and data related to the College's student body, academics, personnel, financial position, facilities, and outcomes indicators. Graphs and charts provide an at-a-glance comparative perspective.

This marks the eighth publication of the *FactBook*. In addition to the printed copy, tables are stored for easy access on the World Wide Web -- ***http://www.spjc.cc.fl.us/central/ir*** -- and it is updated on a continual basis as the data becomes available.

As with any publication, this book is the result of the time and efforts of many people both in developing the information and producing the hard copy. An in-house production, the cover was designed by the staff in Institutional Advancement and the book printed in District Impressions. Many thanks to all SPJC staff who were involved in this publication. We hope you will find this *FactBook* useful and welcome any suggestions for improving the content or presentation.

HISTORY OF ST. PETERSBURG JUNIOR COLLEGE

Access and excellence are the hallmarks of St. Petersburg Junior College, Florida's oldest two-year institution of higher education. Founded in 1927 as a private institution, with its initial classes held in one section of the then-new St. Petersburg High School, today it stands as a multicampus public institution with 10 locations situated throughout the county and its services administered throughout the nation and beyond. Learning sites are located in St. Petersburg, Clearwater, Tarpon Springs, Pinellas Park, Largo and Seminole. The latter campus opened in August 1998. It now includes SPJC's College University Center, which opened a year later in partnership with half a dozen four-year institutions, enabling students — through the technology of distance education — to earn university degrees without leaving Pinellas County. The SPJC Center at the University of South Florida St. Petersburg also opened in August 1998, and the College's new Corporate Training facility at the ICOT Center business park in mid-Pinellas County opened the following session. This year, in October 1999, the College opened a high-tech facility at Pinellas County's STAR Center in Largo that serves scientific, technological and research enterprises located at the center plus several outside its borders. SPJC's courses also are offered in various community facilities throughout the county via the Open Campus program, while others — including entire programs — are transmitted to students by way of computer, television and the Internet.

IN THE BEGINNING

THE CHARTER

Capt. George M. Lynch, superintendent of public instruction for St. Petersburg's public schools, founded St. Petersburg Junior College in 1927 as a private, nonprofit corporation to help meet the needs of a growing state population and to provide local access to higher education for students with limited resources. The nation's Great Depression of the 1930s had come early to Florida. The "paper boom" (inflated land values) fueled inflation during the mid-'20s in the Sunshine State. Subsequently, the families of many high school graduates found "going away to college" beyond their means.

St. Petersburg Junior College was founded to enable students to live at home, pay low tuition, work part-time and still pursue a postsecondary education. The 1928 charter application to the State of Florida listed the following aims for SPJC:

> To found, maintain and conduct a scientific institution of learning; having a department of fine arts; and such other departments as from time to time may be added in accordance with the provisions of the by-laws; to own, buy, sell and mortgage real estate and personal property and to use all income derived therefrom in its work and not for the benefit of the members of said Corporation.

Led by Lynch, who would become the College's first president, a group of local citizens signed the charter application. They were L. Chauncey Brown, publisher of the *St. Petersburg Evening Independent;* Frederick R. Francke, a Florida Power Corporation executive; Frank N. Robinson, an insurance executive; George W. Wylie, an attorney; and Robert R. Walden, a merchant. Together with Mrs. H. C. Case, a Pinellas County trustee, they made up the founding Board of Governors. They demonstrated their dedication by signing personal bank notes guaranteeing expenses until tuition could be collected. The city's Advertising and Library Board also backed SPJC, to the tune of $10,000.

The board members managed the corporate affairs until the first election, when Brown was named board president, Francke vice president, Robinson treasurer and Wylie secretary. Lynch, who eventually rose to county superintendent, remained president of the College until his death in 1935. At that time, Robert B. Reed, whom Lynch had selected as dean of the College, was appointed by the board as the second president. G.V. Fuguitt succeeded Lynch as the county superintendent. The informal relationship between St. Petersburg Junior College and the Pinellas County School System continued.

COLLEGE PROGRAMS

In the beginning, advice was sought from educators at the University of Florida regarding the type of college to be created. They recommended a two-year college, noting that it would be much less expensive to operate than a four-year institution. Lynch and the board agreed, but clung to the idea that St. Petersburg Junior College would become a four-year college as soon as it was financially feasible. In the 1927 catalog, the goal of the College read as follows:

> . . . to afford opportunity to the young men and young women of St. Petersburg and Pinellas County who have completed the 12th grade course of study, to continue a two-year program of study of college grade, leading to the degrees of Bachelor of Arts and Bachelor of Science. Non-resident students will be admitted upon certificate showing that they are living with their parents, legal guardians or relatives.

Students who attended the College planned to graduate in arts and sciences. At the time, there were no separate departments at SPJC, but the curriculum included history, English, mathematics, science and education. Students would either transfer to a four-year college or university to complete their baccalaureate degrees or receive a teacher's certificate permitting them to seek employment in elementary and secondary school classrooms. As noted by State Superintendent of Public Instruction W. S. Cawthon in 1928:

> This office will recognize graduates of the St. Petersburg Junior College . . . and will issue limited Graduate State Certificates to the said graduates, said certificates authorizing the holders thereof to teach in the public schools up to and including the tenth grade.

The College became fully accredited in 1931. Preparation for transfer to four-year colleges was strengthened in September 1933 by the addition of a third year to the curriculum, a year recognized under certain provisions by the University of Florida. In 1934, the third year of college was similarly recognized by the Florida State College for Women (now Florida State University). The additional year of the curriculum was dropped at the end of the 1938-39 academic year because it had become evident that expenses progress geometrically not arithmetically. The Board of Governors determined to maintain a strong, high-standard two-year college and abandoned further efforts to seek four-year status.

FACULTY AND STUDENTS

The opening-day enrollment in Fall 1927 was reported by both the local newspapers as 102. The first class was held Sept. 12. W.W. Little, principal of St. Petersburg High School and acting college dean, was in charge of 14 faculty members. By 1928-29, Robert B. Reed had been appointed dean, and taught history while performing his administrative duties. That fall (1928), 186 students enrolled; the following June, 50

students proceeded down the aisle as the charter graduating class. The College granted diplomas, a practice that continued until June 1946 when the first Associate in Arts degrees (44 in all) were awarded. Opening fall enrollment grew from 173 in 1930 to 389 in 1939.

At the beginning of the fall semester in 1941, enrollment stood at 317. In early December, the United States was drawn fully into World War II. SPJC's enrollment dropped sharply, reaching a low of 98 students — almost all of them women — in the Fall of 1943. The College avoided closure by becoming an integral part of the war effort. A Civil Aeronautics Administration/War Training Service (CAA/WTS) installation was established. Each six weeks, 60 naval V5 cadets rotated through the College for part of their early training. Housed in an old hotel near Albert Whitted Airport on the city's bayfront, they received their first experience as pilots while attending "ground school," which included navigation, plane recognition, physical training and naval procedures relevant to their objective. Those hundreds of young men enabled SPJC to remain open.

Upon the death of President Reed in 1944, Dr. Roland A. Wakefield, who had become head of the College's Department of Physical Sciences in 1933, was appointed president. Dr. Wakefield's interest in aviation had taken him during the war from SPJC's labs and classrooms to Atlanta where he served as the Civil Aeronautics Administration/War Training Service regional coordinator. He had been key to the establishment of SPJC's naval cadet training. He assumed the presidency soon after his return to the College.

War's end brought the College's largest-ever enrollment as returning veterans took advantage of the GI Bill. Fall enrollments in 1946 and 1947, respectively, were 452 and 460. As Dr. Wakefield retired at the end of the 1949-50 academic year, 88 students graduated. He was succeeded by the Dean of Men, Michael M. Bennett, Class of '37, a member of the faculty since 1940 and the first president to have been an SPJC student.

FACILITIES

When classes began in Fall 1927, Lynch, as city superintendent, had persuaded the Pinellas County School Board to provide space, at no cost to the College, in one unused (and unwired) wing in the then-2-year-old St. Petersburg High School. At the end of that fall term, students and faculty moved to a former public school at Fifth Street N and Second Avenue downtown, overlooking Mirror Lake. This mid-year move to downtown — into a two-story, white-columned brick building — gave the College much more room. Although SPJC remained at this facility until 1942, the quarters soon grew cramped and it became clear that much more space would be needed. In 1931, the City of St. Petersburg pledged an annual grant of $15,000 to the College. Six years later, it donated a 24-acre tract in the city's Eagle Crest section. President Reed initiated a building campaign in 1938 that raised about $100,000 in pledges made by St. Petersburg residents and businesses.

The first permanent new building — housing classrooms, offices, the library and an auditorium — was erected at the corner of Fifth Avenue N and 66th Street. Built with WPA labor, it cost $91,000; equipment worth about $100,000 was transferred from the old building, mostly during the December holiday break. The new building and its contents were valued at a quarter of a million dollars. The first classes were held in this building in January 1942. A small, temporary cafeteria building also was built. These two buildings, plus a limited library first occupied in 1955, constituted the College's total facilities until 1957.

The original building, still in use today, is known as the James E. Hendry Administration Building on the St. Petersburg/Gibbs Campus. Renovated and air conditioned in 1963, it now houses administrative offices, conference rooms and faculty offices. More additions and renovations to the building were made in 1991 and 1992. In 1993-94, the other buildings on campus underwent a multimillion-dollar renovation. The Lynch Auditorium in the Administration Building has experienced renovation and redesign as well, and it currently is undergoing a major transformation into the college's Music Center. The college's theater program, meanwhile, has been transferred to the Clearwater Campus. It will be permanently housed in the Fine Arts Auditorium there, once renovations are completed.

FROM PRIVATE TO PUBLIC

The wave of returning veterans subsided toward the end of the 1940s. The College began losing superior faculty to better-paying positions at other colleges and universities. Demographics pointed to fewer college-age people for at least the next decade. This was the result of low birth rates during the 1930s. Tuition increases necessary to maintain the operation of the College proved counterproductive by further depressing student enrollment. Prosperity was not evident in the College's service area; hence, outside financial support for a private two-year college was extremely difficult to generate.

The Florida Legislature, in 1939, had adopted a law authorizing counties with a population of 50,000 or more to establish a public junior college, with permission of the State Board of Education. Then, in 1947, the Florida Legislature passed the Minimum Foundation Program (MFP), which provided financial support for operation and capital outlay (construction) for Florida public schools. On May 11, 1948, the Pinellas County Board of Public Instruction adopted a resolution accepting the College. SPJC converted from private to public status, the second junior college (after Palm Beach Junior College) in the state to make the change. At that time, the Board of Governors of the College dissolved the corporation and released all existing facilities to the school board. L. Chauncey Brown remained president of the Board of Governors, which had consisted of 12 members. The Board became the College Advisory Committee, in accordance with Florida Statutes Chapter 230.0103 and State Board Regulations Chapter 130-8.04, with Brown as chairman. Others on the five-member Advisory Board were Frederick R. Francke, Allen C. Grazier, Robert R. Walden and George W. Wylie, all former members of the Board of Governors.

With the change in status from private to public, the College became part of the school system with the president reporting to the Pinellas County Superintendent of Public Instruction. Shortly after SPJC became public, G. V. Fuguitt retired from that post. Floyd T. Christian was elected to succeed him. During the College's tenure under the County School Board, tuition was lowered. Although the Florida Legislature authorized creation of the Division of Community Colleges in the State Department of Education in 1957, it was not until July 1, 1968 that it authorized the separation of the colleges from their county school systems. At that time, the College Advisory Committee of five members became the St. Petersburg Junior College District Board of Trustees.

At the state level, the Florida system of 28 community colleges has undergone various reorganizations to insure its efficient and effective operation. In 1983, the Florida Legislature replaced the State Community College Coordinating Board with the State Board of Community Colleges, which has preserved local control represented by local boards of trustees while at the same time establishing system-wide policies and coordination.

AND IT GREW

EXPANSION OF THE COLLEGE MISSION

Pinellas County experienced unprecedented growth during the 1950s and the College was swept along with it. In Fall 1950, the first year of Michael Bennett's presidency, 451 students enrolled; in Fall 1978, the last year of his presidency, 14,445 students signed on. During his 28-year tenure, enrollment increased by more than 3,100 percent. Additionally, during those 28 years, 25,449 degrees were awarded. This compares to 1,450 students who had graduated from 1928-29 through 1949-50 — an increase of more than 1,650 percent.

As part of the Self-Study of 1957-59, the faculty formulated a college philosophy and a set of institution-wide objectives reported in the *1958-59 College Bulletin.* Acknowledging its relationship to the county schools, St. Petersburg Junior College noted that its philosophy was contingent upon the Statement of Philosophy of Education for the Schools of Pinellas County, Florida. Moreover, it recognized an expanded responsibility to the individual. The College's mission was stated in the following manner:

> St. Petersburg Junior College shares a responsibility with the community, county, state and nation in contributing to the development of the individual student so that he (she) has the opportunity to become a useful citizen, to make worthwhile contributions to society and to live a rich and satisfying life.
>
> The purpose of the College is threefold: (1) to provide community educational facilities for those who may wish to transfer and continue their college education; (2) to provide community educational facilities for those who wish to terminate college work at the junior college level; and (3) to provide the entire community with an educational program based upon its needs and demands.

The catalog listed seven enabling objectives to achieve the College's purpose and one objective describing a method to measure their attainment. These objectives affirmed the commitment to a college transfer program comparable to the lower-division program available in four-year colleges and universities, a terminal college curriculum that would lead to employment, and non-credit life-long learning courses that would facilitate changing vocational and social needs.

The College rigorously developed its programs to meet its new educational vision for the next 20 years. It was not until the *1978-79 College Bulletin* that a major change appeared. While the objectives previously stated were reaffirmed, attention was given to students who might profit from special opportunities, including instruction to overcome deficiencies that might impede college-level work. The following six objectives were identified in the bulletin for the College:

(1) To provide educational opportunities for those students who will transfer to other colleges to continue their education.

(2) To provide a variety of occupationally oriented programs for students who complete their career preparation at St. Petersburg Junior College.

(3) To provide opportunities for students who desire to increase their general education.

(4) To provide opportunities for cultural enrichment, personal and social development for members of the community.

(5) To provide special opportunities for students with superior qualifications as well as for students with inadequate skills and backgrounds who need additional training to participate in the general programs of the college.

(6) To provide, through counseling, guidance, which will enable students to plan more effectively for the realistic attainment of their academic and personal goals.

These objectives became the foundation upon which a more comprehensive mission would emerge in the next stage of the College's development.

COLLEGE PROGRAMS

As enrollment grew, the College undertook the development of an expanded curriculum. The School of Nursing was founded in 1954 and Anastasia M. "Nancy" Hartley, R.N. was named director. It offered the first associate degree in nursing in Florida. In addition to the two-year program in nursing, occupationally oriented programs in business were developed.

Although Article II of the Application for Charter in 1928 called for ". . . a department of fine arts; and such other departments as from time to time may be added . . ." it was 1956 before SPJC became departmentalized. Table 1 shows the first organization of the College.

TABLE 1
COLLEGE'S FIRST DEPARTMENTS, 1956

Department	Chairperson
Business	Melvin Courson
Communications	Gertrude Porter
Humanities	Harriette G. Ridley
Mathematics & Engineering	Carol S. Scott
Natural Sciences	Arthur W. Gay Jr.
Nursing[1]	Anastasia M. Hartley
Social Sciences	E. L. Noel Jr.

[1] School established 1954

In 1957-58, the School of Nursing became the Division of Nursing and continued to be headed by Miss Hartley. By 1958-59, several changes had occurred in department chairpersons, and one new department and a second division had been created. The 1958-59 college organization is shown in Table 2.

TABLE 2
COLLEGE DEPARTMENTS AND DIVISIONS, 1958-59

Department/Division	Chairperson
Business	J. E. Nicholson
Communications	M. Carolyn Parker
Humanities	Harriette G. Ridley
Mathematics	Carol S. Scott
Natural Sciences	Arthur W. Gay Jr.
Nursing Division[2]	Anastasia M. Hartley[3]
Radio, Television & Film	Nancy E. Reiss
Social Sciences	E. L. Noel Jr.
Technical Division	William L. Bolin[3]

The 1960s saw continual change in the College's organization. In 1960-61, the Department of Communications was renamed the Department of English and continued to be headed by M. Carolyn Parker. All speech, dramatics and modern language courses were placed in the new Department of Speech and Modern Languages chaired by Roberta M. Buchanan. In January 1965, this department was placed in the Department of Humanities and Peter Mendoza Jr. was named Assistant Chairman for Speech and Modern Languages.

Also in 1960-61, the Department of Business became the Department of Business Administration. The following year, the Department of Radio, Television and Film became the Department of Radio and Television chaired by Robert C. Bohan.

The '60s saw the creation of several new departments as well. In 1960-61, the Department of Physical Education was created, chaired by Eleanore M. Gehlen. Joan Catherman was employed in 1962 as director of the new Dental Hygiene Division, to plan for the implementation of classes during the 1963-64 year. The Department of Police Administration was created in 1962 with James D. Stinchcomb as chairman. In 1963, Harold V. Hoff was employed as chairman of the new Hotel-Motel-Restaurant Department. Enrollment began in 1964.

Two courses in data processing were offered in 1964-65, and in 1966 the Data Processing Department was established with Wayne Laurents as chairman. Beginning with the 1965-66 academic year, the College instituted a remedial Program of Directed Studies for students with ability whose educational background evidenced academic weaknesses. Courses were developed that focused on the use of programmed and non-programmed instructional materials to strengthen students' basic skills as well as study skills.

---

[2] Created 1957-58
[3] Dean of the Division

The College became a three-campus institution in Summer 1965 with the opening of the Clearwater Campus. A Directed Studies Department was activated on both the St. Petersburg and Clearwater campuses and was combined with Communications on the short-lived Gibbs (later Skyway) Campus in south St. Petersburg. Clearwater Campus departments activated with its opening are shown on Table 3.

The Gibbs Campus was "inherited" by SPJC from Gibbs Junior College, an all-black institution that had been started in 1957 as part of a 12-member state-funded network. It was located on the campus of Gibbs High School in south St. Petersburg and, during its brief existence, served thousands of students from around the Tampa Bay area. Among its distinguished graduates were Walter Smith, who became president of Florida A&M University, and Calvin D. Harris, an eventual provost and vice president at SPJC who would be named by Gov. Lawton Chiles in 1997 as the first black member of the Pinellas County Commission. Gibbs Junior College, which at the county's behest had become SPJC's Gibbs (later Skyway) Campus, was disbanded in 1967. Most of its faculty and staff were absorbed into SPJC's other two campuses.

In 1967, several organizational changes occurred on the Clearwater and St. Petersburg campuses. In January, the Humanities Department was established on the Clearwater Campus with Donald L. Bisdorf as chairman, and the Communications Division became the English Department. On the St. Petersburg Campus, two assistant deanships were created under the Dean of Instruction, one for Technical-Related Programs and one for Health-Related Programs. The Hotel-Motel-Restaurant, Radio-Television, Police Administration and Electronic & Mechanical Technology departments were placed under Technical-Related Programs. The Dental Hygiene and Nursing departments, as well as two new programs, Inhalation Therapy and Hospital Care Administration, were placed under Health-Related Programs.

On the Clearwater Campus, Leroy M. DeVane was named Assistant Dean of Instruction for Governmental Services. The Data Processing Department and the new Aerospace Technology program were placed under Dr. DeVane. A new program in Pre-School Education was begun on both the Clearwater and St. Petersburg Campuses. Its purpose was to prepare competent instructional personnel for community, private and church-related pre-school institutions and to provide in-service opportunities for pre-school classroom teachers.

Much program expansion occurred during the Bennett administration. The programs on the St. Petersburg and Clearwater campuses at the time of Michael Bennett's retirement (January 1978) are shown in Table 5.

TABLE 5
ACADEMIC DEPARTMENTS/DIVISIONS BY CAMPUS, 1978

Campus	Department/Division	Chairman/Director

	Police Administration	Robert B. Tegarden
	Science	William R. Rice
	Social Science	Joy A. Mitchell

In addition to those shown, the Deaf Program had been created at the Clearwater Campus, coordinated by Calvin Harris.

FACILITIES

As enrollment increased, so did the need for construction of additional facilities. A direct appropriation by the Legislature in 1954 resulted in the start of new construction. The St. Petersburg Campus acquired a small new library that was occupied in 1955. Five separate parcels of one to five acres were purchased for $360,742, extending the campus from the original 24 acres to 37.58 acres. The largest of these parcels is the off-campus site that contains the Physical Education building, running track and swimming pool. The latter was razed in 1999. Today, the campus has 17 buildings.

In 1953, as a result of requests from people living in the Clearwater area, nine evening classes were offered at Clearwater High School. Eighty-eight (88) persons registered for the first session, and course offerings were increased each semester as the needs and interests of the northern Pinellas students were identified. During the 1959 Fall semester, 113 students were registered in 14 evening classes at Clearwater High School. After considering the current enrollment and projected growth of Pinellas County, the College Advisory Committee recommended that a Clearwater campus be established. In July 1959, a request was made to the State Department of Education for permission to plan a campus in the northern part of the county. After a study of enrollment projections for the next 10 years and a survey by the State Department of Education, the plan for a campus in Clearwater was approved, located 14 miles north of the Fifth Avenue campus in St. Petersburg.

In 1962, a tract of land was selected and acquired through purchases and gifts. In 1964, construction began. The 38.3 acres north of Drew Street were purchased from the county for the token sum of $1; the 34.5 acres south of Drew Street were purchased for $226,008, with the City of Clearwater paying $127,000 of this amount. During the second session of 1964-65, 532 students taking 35 evening classes were moved onto the new campus and day classes were held there for the first time. In 1968, a parcel of one-half acre was purchased for $1,275 for parking; in 1969 the Faith United Church of Christ donated a similar parcel, also to be used for parking. The Clearwater Campus today encompasses 73.87 acres and contains 17 buildings. Its long-time provost — Dr. Vilma Zalupski, who retired in 1996 — was the first woman provost to be named in Florida.

In February 1965, Gibbs Junior College was placed under the supervision of SPJC. At the close of the 1965 Spring semester, it became the Gibbs Campus of St. Petersburg Junior College. In 1966, the campus name was changed to the Skyway Campus. For economic reasons, however, this campus — located at St. Petersburg's Gibbs High School — was phased out of operation in June 1967. In February 1993, SPJC's St. Petersburg Campus was rededicated as the St. Petersburg/Gibbs Campus, to honor the contributions Gibbs Junior College, its personnel and various of its alumni have made to St. Petersburg Junior College and to Pinellas County in general.

Although operating three campuses, St. Petersburg Junior College remained a single institution with a central administrative organization. It was felt that this one-college concept could best be maintained by having central administrative offices. In July 1966, the Pinellas County Board of Public Instruction purchased a 9.47-acre site in Pinellas Park for this purpose. Construction of two office buildings was started in 1967. These offices were housed in a mid-county location without specific physical identification with any campus. They were occupied in August 1968.

Early in 1970, the mayor of Tarpon Springs approached President Bennett about the possibility of opening a college site there. A study was made and, meanwhile, a special relationship was formed between Tarpon Springs banker-philanthropist A. L. Ellis and

city officials. The result: establishment of the Tarpon Springs Center, rent-free to the College, on the second floor of the Ellis Springs State Bank in the fall of 1970, to operate for a provisional three-year period. Later, the city's Rotary Club provided additional space in the Rotary Youth Center. On Oct. 19, 1972, the College purchased a tract consisting of 54.17 acres on Klosterman Road for $328,000. Seven buildings with more than 21,000 square feet rose on the site and the brand-new Tarpon Springs Center opened in Fall 1975. Today it contains 14 permanent structures augmented by portable facilities, and a major addition is under construction that will add a larger library, an art museum and a fine arts education center. The campus area also has grown through the acquisition of 18.6 adjacent acres. Its provost, Nick Billiris, has been on the job since the second year of operation.

In August 1970, and again in February 1971, the College purchased tracts of 81.4 and 21.72 acres, respectively, within the Seminole community. Construction of a new campus began in 1997. The initial building — a model of educational technology — opened to students in August 1998. The 24,000-square-foot Technology Learning Center contains computer and interactive-TV classrooms, a multimedia conference room and a 120-computer video station known as the Information Commons. Work on Phase II of the Seminole Campus is under way.

The Bay Pines property of 55.21 acres, only 15 of which are above the mean high water mark, was acquired in December 1973 by a quitclaim deed from the federal government. The two buildings on the property serve as college storage and as a classroom for the county's Life Skills Program. This program provides life skills training for retarded adults past the age of 21. It is under the direction and co-sponsorship of SPJC's Open Campus and the Pinellas County School Board. For the past six years, the program also has been offered at the St. Petersburg/Gibbs Campus.

AND LOOKED TOWARD THE FUTURE

President Bennett's Jan. 31, 1978 retirement was followed by the appointment of Carl M. Kuttler Jr., J.D., who had been serving the college as Dean of Administrative Affairs. Dr. Kuttler, SPJC Class of '60, is the second SPJC graduate to be named to the presidency. May 1998 marked his 20th anniversary in office.

COLLEGE MISSION

In 1987, the District Board of Trustees adopted a new mission statement that affirmed St. Petersburg Junior College as a comprehensive, open-door institution with a policy of providing quality educational experiences to a diverse student body and community. The original goal of the College (to prepare students to transfer to four-year institutions) continued, as did the goals previously established regarding the preparation of students for entry into a job or career, the upgrading of students' occupational skills, and the strengthening of their basic academic skills. Additionally, the mission statement addressed the need for flexibility and innovation in the way services were provided, the integration of educational goals into lifelong learning, and the encouragement of minority students to utilize the available college resources and opportunities. The 1989 Florida Legislature added economic development as a component of the mission of all community colleges and since has granted SPJC capital construction and renovation funds of the following amounts:

$6,293,832 in 1989-90	$5,664,427 in 1990-91	$6,676,405 in 1991-92
$13,305,995 in 1992-93	$6,729,719 in 1993-94	$10,481,060 in 1994-95
$6,335,156 in 1995-96	$8,353,332 in 1996-97	$12,542,977 in 1997-98.

During the 1993-94 school year, a committee was formed to review the College's mission. A new statement of that mission, which appears on Page 1 of the current catalog, states that the goals of the College are to:

- prepare students for transfer to upper division baccalaureate programs at four-year colleges and universities through the Associate in Arts degree program;
- prepare students for careers requiring postsecondary education through Associate in Science and selected Certificate programs;
- prepare students for responsible and ethical citizenship, directed interaction in the diverse community, participation in the global society, effective involvement in life activities, and informed decision-making through general education courses;
- provide underprepared students with opportunities to achieve entry level skills in reading, writing and mathematics through the college preparatory programs;
- provide opportunities to improve employability, enhance career skills, and attain personal enrichment, through courses, seminars, workshops and other continuing education programs offered throughout the community;
- help students choose appropriate courses, programs, services and activities as well as maximize their opportunity to succeed in college through a comprehensive student development program;
- contribute to the economic development of the county through technical courses, workshops, programs and services designed to enhance the competitiveness of individuals, businesses and industries in the local, state, national and global economies;
- contribute to the international education of students through a variety of courses, foreign study tours, faculty and student exchanges, linkages with international institutions and other special programs; and
- serve target populations beyond the borders of Pinellas County through authorized programs and activities that emanate from the institution's history of service and specialized expertise.

COLLEGE PROGRAMS

Under the Kuttler administration's leadership, Open Campus — a flexible system for providing educational services — was established to meet the growing needs of the community for lifelong learning. This program provides credit and non-credit courses, workshops and seminars on the College's campuses and at business sites throughout the county to meet existing community needs. It includes the Corporate Training Center as well as the College for Kids Program, the Dual Credit Program for high school students, and other continuing education classes for job training and fun.

Today, the programs leading to the Associate in Arts degree are the traditional transfer programs with concentrations in art, arts and sciences, architectural/building construction, business administration, computer science (business option), corrections, early childhood development, education, engineering, corrections/criminal justice,

English/humanities, fashion merchandising, fire administration, forestry, gerontology, human services, social work or occupational therapy, industrial arts education, international business, law enforcement, mass communications, mathematics, medical technology, music or music education, natural science, nursing, occupational therapy, pharmacy, physical therapy, speech/audio pathology, pre-dental, pre-medical, pre-veterinarian. These programs meet all the requirements of the general education component for the baccalaureate degree.

The college has more than three-dozen Associate in Science programs that prepare students for entry-level jobs. All are listed in the current catalog.

Additionally, the college offers a growing set of certificate programs that in 1997 expanded more than sixfold. Currently, more than 40 different programs are grouped under these eight headings: Advanced Center for Technology; Business Development & Administrative Services; Emergency Medical & Fitness Training Services; Health Information Management & Specialty Services; Health Management & Social Services; Manufacturing, Design & Building Construction Technology; Microsoft Certification Series; and Public Safety.

In 1989, SPJC launched Project Flamingo, a collegewide, comprehensive approach to integrate computer technology in a totally networked, standardized environment. The plan was created to enhance the curriculum and teaching-and-learning process, strengthen the administrative systems and improve campus communications. This multi-year computer project was developed with the considerable help and cooperation of Apple Computer, Unisys and the Digital Equipment Corporation (DEC), who among them contributed more than $3-million in equipment to the College. Through the project all of the College sites became interconnected, enabling the majority of faculty and staff to use the new tools of technology to enhance quality and improve productivity. Its major purpose: to promote excellence in teaching and learning by incorporating computers, CD-ROM and laser disk technology into the curriculum as instructional tools, through a collegewide fiber network.

In the wake of Project Flamingo, the College has launched a number of other administrative and academic computing initiatives: Project Horizon; SPIRIT (St. Petersburg Junior College Interactive Registration & Information by Technology); Project Connect, an initiative to upgrade the College's network connections and provide high-speed computers to all college faculty; a new PeopleSoft-driven administrative finance system; and the promise of a new Human Resources and Student Registration system using PeopleSoft software to serve the College well into the next millennium. Many of the concepts that began with Project Flamingo have come to fruition in concert with the development of the Seminole Campus, which has as part of its vision all curricula and services being either delivered or enhanced significantly via technology.

FACILITIES

During the first year of the Kuttler administration (1978), SPJC asked the voters of Pinellas County to approve, by referendum, a temporary, additional 1/2 mill in property taxes for college improvements. Despite predictions of failure from some quarters, the referendum passed and the College was able to accomplish some much-needed renovations with the new funds.

In an effort to respond to the growing demand for health care providers and to make more effective use of resources, the college petitioned the Florida Legislature for funding to purchase and remodel three buildings at the former Webb's City retail complex in

Pinellas Park. A special $6.5-million appropriation from the Legislature was obtained and the College acquired 170,000 square feet of floor space for its Health Education Center. In addition, a capital campaign, begun in 1981 and completed in 1986, raised $3.5-million, including a significant gift from Mr. and Mrs. W.W. Caruth Jr.

In the summer of 1981, 10 of the existing 11 health care programs were moved into the new center and classes began that August. The 11th program, Veterinary Technology, occupied its building in August 1983. The College since has acquired additional property for parking space, plus two additional properties fronting on 66th Street N. All of the buildings on the 11.63-acre tract have undergone renovation. The library area has been expanded into the newly renovated space and includes the M.M. Bennett Library/St. Petersburg Times Media Center. A $400,000 overhaul of the center's parking lot was completed early in 1994. In 1999, major renovations were done to the Vet Tech area and construction was finished on the new $1.4-million teaching auditorium. When it's not in use, the latter is available to the public for meetings and other gatherings.

The expansion of the College's Corporate Training program led to the establishment of the Corporate Training Center in the Carillon office complex north of St. Petersburg in Winter 1988. That facility now has evolved into the new Corporate Training Center located at the ICOT Center business park located just north of Ulmerton Road and immediately accessible to clients in St. Petersburg, Clearwater, Largo and Pinellas Park — with a straight shot to Tampa. The new facility opened in mid-year of 1998-99. The 7,000 square feet of space house class and conference rooms with full computer, teleconference and dining facilities.

In July 1988, the Allstate Insurance Company turned over to the College the keys to its former regional office facility in southern St. Petersburg. The 131,344-square-foot building on 20.85 acres was valued at more than $11-million. At the time, it was the largest property gift ever made to a Florida institution of higher education, and the largest ever to a U.S. community college. Extensive renovation concluded in 1991. The Allstate Center houses the Central Computer as well as the Open Campus program and the College's Southeastern Public Safety Institute (law enforcement programs). The Institute's state-of-the-art firing range was completed in 1995. Next door to Allstate, the former American Heart Association building was purchased in 1998 to house offices for the Florida National Guard, which is engaged in a number of programs at the center.

EXPANDED HORIZONS

In January 1987, St. Petersburg Junior College played host to the first "Roundtable on Institutional Effectiveness." A dozen national experts on higher education and community college administration, led by former U.S. Secretary of Education Terrel Bell and Director John Roueche of the Community College Leadership Program at the University of Texas/Austin, met to develop future directions for SPJC.

Within a year, the College held the second of these conferences. The "Roundtable on Educational Partnerships" brought together leaders from national organizations representing American postsecondary education. Together they analyzed the ways SPJC had successfully addressed many of the education and training issues facing the local community.

The second roundtable led to a request from William H. Meardy, Executive Director of the Association of Community College Trustees (ACCT), for material relating to the College's presentations at the conference. Administrators, faculty and board members responded, providing 46 pages of information about SPJC, its programs and

accomplishments. Published in the *ACCT Journal,* this marked the first time an issue of that publication was devoted exclusively to a single institution. Director Meardy wrote: "Those of us who were expecting a 'typical' community college found out our expectations were wrong. St. Petersburg Junior College is anything but 'typical.' Words such as 'outstanding,' 'amazing,' 'innovative,' 'creative,' 'first class,' 'exemplary,' 'trend setting' and 'community centered' describe SPJC, but 'typical' it is not. What we found was a college replete with such an abundance of human services and educational programs that we were awed."

Ten years later, in November 1998, a third roundtable was convened. Meeting at the Bilmar Beach Resort on Treasure Island, the conferees turned their attention to "Focus on Learning: Planning the Community College for the 21st Century." Implicit in the theme was the idea — the reality, really —that faculty must come to regard themselves as learning guides and abandon their old image of teaching authorities. Among the presenters were Denver Community College President Byron McClenney, Vice President Kay M. McClenney of the Education Commission of the States, North Seattle Community College's Rita Smilkstein, prominent Florida architect David Michael Harper and Visions Inc. President James Riskowski, who heads one of the nation's leading educational technology consultancies.

In 1982, at a national conference of college trustees, Tom Gregory (a future Chairman of SPJC's Board of Trustees, who earlier had chaired the Florida Ethics Commission) and President Kuttler heard Dr. Paul Ylvisaker, former Dean of Harvard's Graduate School of Education, outline the rationale for an Applied Ethics program. Following Dr. Ylvisaker's visit to SPJC in November 1987, the Board of Trustees approved the creation of an Applied Ethics program. (Initially, the basic course was set at three hours and required for all students seeking A.A. degrees; it since has been changed to a two-hour course and is required of A.S. degree candidates as well.) Finding no satisfactory text for the course, the College authorized the writing of one. In July 1993, *Ethics Applied* was published by McGraw-Hill. Its 17 specially commissioned authors from around the U.S. included three from the College faculty. A revised edition was published by Simon & Schuster and marketed nationally in 1999.

The College's Central American Scholarship Program (CASP), established in August 1987, welcomed 16 students from modest backgrounds as its first class. The two-year program gives students the academic and vocational education needed to improve their families' standard of living when they return. While here, each student lives with an American family, which greatly helps them to adapt to "life in the States." Initiated by Georgetown University, CASP is funded by the U.S. Agency for International Development.

St. Petersburg Junior College and the American Association of Community and Junior Colleges worked together to offer the first national conference on "The Role of the Community College in Shaping the Nation." Held at the Jimmy and Rosalyn Carter Center in Atlanta, it brought some 200 educational administrators and public officials together at the research/conference complex to discuss national and international issues as they relate to the education of the nation's college students. In a message to the gathering, former President Carter noted that better preparation of students holds the key to the United States regaining its competitive edge in world markets and adapting to the evolving global economy.

In 1989, former U.S. Secretary of Education Terrel Bell accepted the College's invitation to chair its FACET Commission (Focus on Access, Community and Excellence in Teaching). He agreed to work with the University of Texas' Dr. John Roueche in

helping to guide the College's faculty, staff and students. The purpose of this project was to insure continued educational excellence into the next century. During the months following the creation of this commission, members met to discuss teaching effectiveness, evaluation of teaching performance, recognition of teaching excellence, and professional development. Their published report provided invaluable direction for the college.

In October 1989, the College and the American Association of Community and Junior Colleges co-convened their second leadership seminar, at the Gerald R. Ford Museum in Grand Rapids, Mich. "Workforce 2000" looked at the future economy in terms of the people and forces that will make it function. Included in the topics discussed were the role of technology, the importance of a quality workforce in a global economy, and the blending of enterprise and education.

In the international arena, as the breakup of the Soviet Union brought about profound changes in the structure of institutions within Russia, SPJC leaders envisioned a joint educational venture between the College and the Russians. In June 1990, President Kuttler and the president of Leningrad State University exchanged visits. (The project grew out of conversations the previous spring between Dr. Kuttler and a Leningrad State law professor, Valery Musin, who was visiting Dr. Kuttler's alma mater, Stetson College of Law in St. Petersburg. Musin resided for a time at Dr. and Mrs. Kuttler's home.)

Dr. Kuttler spent two weeks in Russia in Fall 1990, and served as honorary rector of Leningrad State University. Among the many notables he met was St. Petersburg (*nee* Leningrad) Mayor Anatoly Sobchak, a leading political figure in the post-Gorbachev era. The Russians reciprocated that fall with a delegation led by Leningrad State University President Stanislav P. Merkuriev (who was named SPJC's honorary president) and Mayor Sobchak. The Russian entourage met with many educational, civic and business leaders during their U.S. visit.

In June and July of 1991, Dr. Kuttler visited Baoji Teachers College in Baoji, Shaanxi, China. Dr. Yang Yijun, the college's president, returned that visit to St. Petersburg Junior College in March 1992, and was named honorary president. SPJC Communications Instructor Jeff Hooks and his family spent a year in residence at Baoji, and other Chinese have visited here since.

At the special invitation of the U.S. Information Agency (an arm of the State Department), Dr. Kuttler returned to Russia in May and June of 1993. He was chosen to assist the Russians in setting up a national community college system to help speed economic reform and development. While there, he arranged for future visits and exchanges on the part of educators and other representatives between Russia and the College. A campus in the "other" St. Petersburg is a long-term SPJC objective.

SPJC and its president were greatly honored in February 1997 with the Werner O. Kubsch Award for Achievement in International Education, one of community college education's most coveted awards. The following year, Dr. Kuttler was auspiciously honored twice by the Association of Community College Trustees — first on the Southern regional level, and then nationally, as AACT's "Chief Executive Officer of the Year."

District Board of Trustees Chairman Joseph Lang also brought credit to the College when, in 1993, he received the "Outstanding College Trustee" award from the Florida Association of Community Colleges. The next year, he was given the Association of Community College Trustees' "Trustee Leadership Award" for the southern United States. When former DBT Chairman Philip Benjamin retired in 1997 from his post on the

Florida Board of Community Colleges (which he had served as charter chairman 14 years before), Lang was appointed by the governor to succeed him. In November 1999, Lang assumed the board chairmanship.

In mid-1996, Tarpon Springs retirees Allen and Isabelle Leepa decided SPJC was the institution to which they would make a remarkable donation: the Leepa-Rattner Art Collection, plus a gift of $2.5-million, to go toward establishment of the Leepa-Rattner Museum of Art at the Tarpon Springs Center. The collection — mostly of abstract art by Allen Leepa and his late stepfather, Figurative Expressionist Abraham Rattner, but containing works by Picasso, Rouault, Chagall, Hans Hofmann, et al. — numbers in the thousands and its value is approaching $20-million. The gift has earned recognition from, among others, the Florida Cabinet and Legislature, plus such publications as *Fortune, Newsweek,* and Microsoft's *Slate 60* online magazine. Groundbreaking for the 58,000-square-foot museum complex — which also will embrace the M.M. Bennett Library and the Fine Arts Education Center — was held Nov. 9, 1999. Completion is scheduled for the spring of 2001. The gift, meanwhile, has generated a decided increase in philanthropic interest in SPJC.

August and September 1997 marked additional milestones in the life of the College. At summer commencement, the first three graduates of the Veterinary Technology Online program received their degrees after completing their studies on the Internet from their homes in Leon, Sarasota and Palm Beach counties. (Other students in the program are scattered across Florida, the U.S. and beyond.) Then, in September, SPJC rounded out seven decades of service to the community in typical fashion — by further committing to the future. A belated birthday party with a 1920s theme was held in early November on the quad of the St. Petersburg/Gibbs Campus. Hundreds of Pinellas residents attended, including two members of the charter graduating class of 1929.

When the U.S. Department of Education released its annual community college rankings in Summer 1999, SPJC as usual found itself in the Top 10 in several categories — in fact, among the Top 5. Even though the College ranks 31st nationally in size, it placed fourth in two categories: for degrees awarded in the Health Professions and Related Sciences, and in Nursing. SPJC was third among all colleges in degrees conferred in Liberal Arts and Science (A.A.) and fifth in total Associate in Arts and Associate in Science degrees awarded. In the former category, eight of the first 10 places were claimed by Florida colleges. Florida claimed five of the first 10 places in the other three categories.

Nov. 10, 1998, two notable events occurred. That afternoon at the District Office, the organizational meeting of the Pinellas County Millennium Celebration Project convened. The College — which has invited Queen Elizabeth to come share in the Millennium Celebration via a scroll containing hundreds of college family members' signatures — is serving as the Project's coordinating agency at the request of the Pinellas County Commission. Commission Chair Barbara Sheen Todd and Dr. Kuttler are co-chairs of the year-long Project (events to unfold countywide between July 4, 1999 and July 4, 2000). Earlier on Nov. 10, a news conference was held at the Florida International Museum in downtown St. Petersburg to announce a significant development: At SPJC's behest, Robert L. White of Baltimore had agreed to bring his private collection of John F. Kennedy artifacts — said to be the world's largest — to the museum. It went on display in November 1999. The museum also agreed to exhibit part of the College's Leepa-Rattner Collection in the future. In tandem with all these developments, the College plans to develop a degree program in Museum Studies that will coordinate with numerous area museums. Much of the success of this venture, however, rides on public and private support.

In December 1998, the College was notified by the American Association of Community Colleges that William Haddad, SPJC Class of '51, had been named to receive one of AACC's "Outstanding Community College Alumni" awards for 1999. Haddad, CEO of MIR Pharmaceuticals in New York, was a co-founder and assistant director of John F. Kennedy's Peace Corps, and was assistant director of the Office of Economic Opportunity for President Lyndon Johnson. Other prominent SPJC alumni include Astronaut Sam Durrance, Class of '67; New York advertising executive Cliff ("Where's the beef?") Freeman, '61; World War II French Underground heroine Virginia Roush D'Albert Lake, '31; Major League All-Star Tim Teufel, '78; Seminole Community College President Ann McGee, 68; former Congressman William C. Cramer, '43; former Florida Commissioner of Education Doug Jamerson, '77; former U.S. Davis Cup Captain Ed Turville, '34; classical pianist/composer Stephen Montague, '63; former Florida Secretary of State Sandra Mortham, '71; and the first woman aquanaut, Sylvia Earle, '53, who received FACC's LeRoy Collins Distinguished Alumni Award in 1996. Award-winning actresses Carroll Baker and Barbara Bosson also attended SPJC briefly.

* * *

St. Petersburg Junior College's move toward the center of the national education stage has been clear and pronounced. It has been evidenced by the growing number of successful endeavors recounted on the preceding pages. Armed with this momentum and with SPJC's traditional vision, the College has eagerly welcomed the arrival of the new century.

Below each program total are the specializations and their enrollments. The sum of the specializations equals the program total shown.
* Program did not exist.
**Program deletion occurred. Enrollment now shown with other Inactive Technical Degree or Certificate Programs for next five years.
Note: Excludes students taking credit courses but not in degree programs.

*As of Fall 1999, the Legislature mandated that College Preparatory Courses would be calculated for funding using the same formula as college credit courses (SSH=number of students x course credit hours: FTE=SSH/40). For comparison purposes, these tables have been converted to show College Preparatory courses using that formula rather than as non-credit courses. Also, for comparison purposes weighting for Project Independence and Dual Credit was removed for previous years.

**There is no funding for Lifelong Learning.

***Historical Overview shows funded FTE prior to 1999 chanes basis including weights for Project Independence and Dual Credit and ESH College Preparatory calculations.

*As of Fall 1999, the Legislature mandated that College Preparatory Courses would be calculated for funding using the same formula as college credit courses (SSH=number of students x course credit hours: FTE=SSH/40). For comparison purposes, these tables have been converted to show College Preparatory courses using that formula rather than as non-credit courses. Also, for comparison purposes weighting for Project Independence and Dual Credit was removed for previous years.

There are several types of course categories within the credit and non-credit system, prior to 1990-91, the headcount number for non-credit students represented an unduplicated count within each of the various non-credit course categories. Beginning 1990-91, the unduplicated headcount number represents an unduplicated count between all non-credit course categories. However there is still potential duplication between credit and non-credit, i.e., a student who takes both credit and non-credit courses is counted twice.

*Utilization ratios are calculated for rooms coded as 110 (general purpose classrooms) and laboratories coded 210 (non-vocational and vocational) in the Facilities Data Base. Room Utilization is defined as weekly hours of room use; the standards are 40 hrs/week for classrooms and 30 hrs/week for laboratories. Space utilization is defined as weekly hours per student station; the standards are room occupancy rate equal to .60 and laboratory occupancy rate equal to .80.

	Statewide All	3200	81	3203	59	3188	62	4123	46	2473	34

"Statewide All" consists of all public state universities and community colleges only.

Section 240.107 (9)(c), F.S., as amended by the Florida Legislature, provided for alternative ways to meet the CLAST requirements. As of January, 1996 students could exempt CLAST if they earned a 2.5 GPA on courses set forth by the Postsecondary Planning Commission and/or achieved a specified score on the state approved tests. Therefore, population taking Clast after January, 1996 cannot be compared to student populations who took CLAST prior to this time. Implementation of CLAST exemption alternatives has resulted in decreased numbers of students who take the CLAST, and declining pass rates.

The passing scores were originally adopted on March 6, 1984, and have since been amended several times.The most recent change occurred in 1992. The passing scores are: Essay is 6, ELS is 295, Reading is 295 and Mathematics is 295.

	Mathematics	3757	948	25.2	2809	74.8

* Based on State established scores.

**Beginning July 1, 1996, the College switched from the MAPS placement test to the Florida College Entry Level Placement Test or its computerized version, CPT. At the same time cut scores for placement into college level coursework were increased from 78 to 83 in English, 72 to 83 Reading, and from 51 to 72 for Mathematics.

***In an effort to more accurately represent data associated with the Readiness for College Report generated by the State Board of Community Colleges, SPJC increased its efforts in reporting other tests. Consequently, beginning 1998-99 all test scores used for placement are reflected in the totals. In the past only the MAPS or CPT scores were reported.

*The increase in 1994-1995 "Other Student Fees" is directly attributable to the new "Security Fee" implemented for the first time in 1994-95. These fees alone were $706,944.

**Private Gifts and Grants were down in 1994-95 in the Unrestricted Current Fund - 1993-94 - U=143,881, R=97,743 = Total 241,624
1994-95 - U= 10,746, R= 198,061 = Total 208,797.
The scholarship fund also increased slightly in 1994-95 ($6,283).

APPENDIX D

Services for Students with Disabilities

St. Petersburg Junior College provides comprehensive academic support for any student who presents qualifying documentation of disability. Beginning with the formation of the Program for the Deaf and Hard of Hearing in 1966 and the Office of Services for Students with Disabilities in 1991, SPJC has been a leader in serving students with special needs. A faculty-level Learning Specialist is available at each campus to supply information, approve documentation, arrange accommodations, and provide student and faculty support, with assistance from a staff of over 20 professionals collegewide.

Services are provided on an individualized basis, and may include testing accommodations, priority registration, interpreters, notetakers, scribes, low-vision enhancement equipment, adaptive computers, permission to use spellcheckers or tape recorders, adaptive desks or chairs, limited professional tutoring, or other accommodations. All services are provided without cost to the student.

St. Petersburg Junior College is dedicated to the concept of equal opportunity. The college will not discriminate on the basis of race, color, religion, sex, age, national origin, or marital status, or against any qualified individual with disabilities, in its employment practices or in the admission and treatment of students. Recognizing that sexual harassment constitutes discrimination on the basis of sex and violates this rule, the college shall not tolerate such conduct. Should you experience such behavior, please contact the director of EA/EO at 341-3257.
